# Paediatric and Perinatal Epidemiology

## Subject Index to Vol. 1

accidents 107
adoption of child with AIDS 148
AIDS 143
air pollution 103
alcohol
  and birthweight 19
antenatal care—see care
appendicitis 124
asthma 106, 107
asthma, maternal 80

behaviour, child 108
  after hospitalisation 104–105
behaviour, health 67
birthweight 19–31, 131, 187
  and educational achievement 100
  and hospitalisation 99
  and later blood pressure 103
  and paternal smoking 183
  and prognosis 188, 190
  and parental birthweight 19
  in Brazil 32
blood pressure 103, 188
breast-feeding
  and AIDS 145
  and cholesterol 103
  and eczema 80
  and social class 100
British Paediatric Association 185
bronchitis 118

calcium 141
care, antenatal 57, 104
  neonatal 33
caries 127–129
causality 132–134
caesarean section 188
cerebral palsy 133–134, 188
chest circumference 55
chronic disease 101
circumcision 104
clinic attendance 104
CMV 118
colitis 105
continuum of reproductive casualty 4
crown-rump length 55

death
  see neonatal, perinatal, postneonatal
delinquency 105
diabetes 107
diarrhoea 32, 153–161
diethylstilboestrol, 139
disruption of family 105
divorce 105–106

eczema 67–94, 107
  maternal 80
educational achievement 107
  breast feeding 100
  low birthweight 100
enuresis 105
epidemiology 1–2, 14–16, 130–135, 139
epilepsy 102, 106
ethics 10–14

fertility 109
fluoride 127–129

genetics 19
gestation 187
growth 123
growth retardation 55, 187

haemoglobin, fetal 197
hay fever, maternal 80
head circumference 55
health education 153–161
height 102
  maternal 131, 132
HIV infection 143–151
hospital admission 104–105, 107
hour of birth 189
housing 109
hypertension, maternal 5

interest, parental 108
intervention 57–66, 153–161

lead 125–126
leukaemia 197–198
lung function 189

maternal age 163–183
measles 100, 101–102
medicalisation 141
mental retardation 117
migraine 106
milk 141
mobility 109
monitoring, fetal 32

National Survey of Health & Development 95
neonatal mortality 56
neuroblastoma 190
Norwegian birth registry 163–183
nursery school 108

obesity and overweight 102, 104, 107
oral rehydration 157

parity
  and birthweight 19
  and perinatal mortality 163–183
perinatal mortality 1
  and hour of birth 189
  and parity 163–183
  in Greece 43
perinatal survey 43
personality
  and smoking 106
post-maturity 56
postneonatal mortality 187
pre-eclampsia 5, 131
psoriasis 106
psychiatric illness 105, 106

race
  and birthweight 19
  and eczema 80
  and neonatal mortality 56
  and sex ratio 42
randomised controlled trial 57–66, 153–161
religion 109
respiratory illness 103, 118
rest 118
risk 8, 130
  attributable 130–135
  relative 130–135

separation 105
services, use of 104–105
sex ratio 42
SIDS 197
single mother 105
smoking 106
  and birthweight 19, 183
  and respiratory illness 103
social group 101
  and breast feeding 100
  and eczema 67
  and mortality 98–99
statistics 7–8,
stress 106
sugar/salt 153–161

survival
  neonatal 33
  to 39 years 98–99

testis, undescended 107
time trends
  in birthweight 131
  in perinatal mortality 163–183
tonsillectomy 104
trials, analysis of 137
Twin Congress 184

ulcers (stomach) 105, 106

weight, parental
  and birthweight 19
work, maternal 9, 109

# PAEDIATRIC AND PERINATAL EPIDEMIOLOGY

# Contents of Volume 1

## Number 1

Editorial 1

Invited annotations

Causes, continua and other concepts: I. The 'continuum of reproductive casualty' 4
*Margaret Ounsted*

Perinatology—How firm a foundation? 7
*Gordon M. Stirrat*

From our own correspondents 10

Mother's and father's birthweight as predictors of infant birthweight 19
*Ruth E. Little*

Access to intensive neonatal care and neonatal survival in low birthweight infants: A population study in Norway 33
*John F. Forbes, Karl-Erik Larssen and Leiv S. Bakketeig*

The Greek national perinatal survey: I: Design, methodology, case ascertainment 43
*Chryssa Tzoumaka-Bakoula*

The St. Thomas's Hospital maternity case notes study: A randomised controlled trial to assess the effects of giving mothers their own maternity case notes 57
*Alice Lovell, Luke I. Zander, Catherine E. James, Sarah Foot, Anthony V. Swan and Angela Reynolds*

The epidemiology of childhood eczema: I: A population based study of associations 67
*Jean Golding and Tim J. Peters*

The epidemiology of childhood eczema: II: Statistical analyses to identify independent early predictors 80
*Tim J. Peters and Jean Golding*

Follow-up of the first national birth cohort: Findings from the Medical Research Council National Survey of Health and Development 95
*M.E.J. Wadsworth*

The conference scene: personal reactions 119

Book reviews 123

Literature reviews 9, 32, 42, 55, 56, 117 and 118

# Number 2

Editorial: The flouride story 127

Invited annotations

Causes, continua and other concepts: II. Risks are not causes 130
*Margaret Ounsted*

Ultrasonography in obstetrics 135
*P. Stone*

From our own correspondents 137

HIV infection in children: sizing up the paediatric problem 143
*Y.D. Senturia and C.S. Peckham*

Village health workers are able to teach mothers how to safely prepare sugar/salt solutions 153
*D. Yach, L. Hoogendoorn and Y.E.R. Von Schirnding*

Parity specific perinatal mortality. A longitudinal study based on sibships 163
*Rolv Skjaerven, Lorentz M. Irgens, Rolv Terje Lie and Tor Bjerkedal*

The conference scene: personal reactions 184

Book reviews 151, 161, 191

Literature reviews 183, 186

Correspondence 197
